ACCOMMODATIONS

Number cabins	1
---------------	---

DESCRIPTION

CONTINENTAL 50

Designed to be fast, reliable and extremely luxurious, the Continental 50 is probably the best example of what an open yacht should be. Whether used as a day boat or for cruises with family and friends, she offers all the comforts and the performance you need to have a perfect vacation.

She is conceived to be a transformer, allowing the owner to completely customize the looks and the arrangement of the yacht. She is designed to have any number and size of cabins and to be finished and equipped as requested by the owner.

The Continental 50 can feature any combination of one to three cabins with full bathrooms, dinettes, interior or exterior galleys and a crew cabin with its own bathroom.
