DESCRIPTION

The Ferretti 630 is a 20-meter flying bridge yacht that has a sharp and aggressive line thanks to a unique external window that comes from the stern to the bow and inside the salon allows a 360-degree visibility over the sea. The brightness is found in the full-beam master stateroom with large open-view windows. The other peculiar characteristic of this yacht is the excellent exploitation of the spaces, from the ample and livable flying bridge, to the splendid living room with living room with U-shaped sofa and dining area, to the three beautiful cabins, each with its own bathroom, which ensure a excellent hospitality for 6 people on a cruise. 12 guests can enjoy the boat during the day in total relaxation. The kitchen at the entrance to the salon is particularly beautiful, functional and practical. The on-board equipment is excellent and at the appropriate levels. The boat is equipped, among other things, with a satellite TV antenna, wi-fi and telephone connection systems, tenders and water games. In 2016 were installed watermaker and ice factory, in 2017 to the boat, already perfect for the charter business, is completely transformed the stern, placing the central passarella / davit on the left side, closing the passage to the center and creating a beautiful space leaving with a comfortable sofa and a large central table. Other minor improvements are made on the fly bridge and internal stairs.
