FEATURES

Lenght	10 m
Beam	3.88 m
Engines	2x300hp
Number crew	1

ACCOMMODATIONS

Number cabins	1
Number bathrooms	1

DESCRIPTION

The model is the perfect synthesis of the many features which characterize our entire range of boats and which make them so appreciated and admired. A truly classic RIB, above all. A linear and tapered inflatable tube, without any useless and unattractive super-structures, which emphasizes the boat's silhouette. A sober elegance without time but with up to date and aggressive design, always. On deck the layout is simply perfect and able to satisfy the needs of even the most demanding boater. It is suitable for all round use. As a relaxing and comfortable day cruiser, an excellent fishing boat, a thrilling tender/toy or work boat. A robust and resistant craft, built to withstand the toughest sea conditions, in comfort and total safety and with outstanding marine handling. Conceived from the very beginning to be able to act also as a maxi tender/chase boat to large yachts, thanks to some available custom modifications for use as a tender, It can become a reliant, functional and elegant support craft.
