Cabins configuration	4 doubles, 1 single beds (with 3rd bed)
Number bathrooms	5
Guests cruising	10

ENTERTAINMENT

Satellite tv	on
Jet skis	on
Jacuzzi	on

DESCRIPTION

LEOPARD 32 CHARTER

The LEOPARD 32, is an amazing sporty and very fast 32 mt pleasure yacht, with very elegant sleek, and modern lines with comfortable and luxurious interior and exterior accommodations. The yacht, beginning to be built in 2007, was definitively completed and launched in 2011. During these years she made very few engine hours and almost always kept in a shipyard, has interiors and engine room like a brand new one. In the years 2021/2022 she has carried out important refit works that have transformed the boat: these range from the creation of new structures consisting of the construction of a comfortable 5th cabin on the main deck with

direct access from the saloon, and a large table/sundeck with a bar corner on the flybridge, to the adjustment and the updating of arrangements and equipment aimed at making the ship more modern, comfortable and safe. All the internal and external upholstery is also replaced. With her 5 cabins and 5 bathrooms, Leopard 32 offers a high-class accommodation for 11 guests: on the Lower deck the large and bright owner's cabin, the VIP cabin, and two comfortable cabins, one with a double bed and one twin plus a Pullman bed. On the Main deck, a large cabin with two beds that can be converted into a comfortable double bed. The lounge with dining room, lounge, and original bar counter offers the best hospitality at all levels. On the lower deck too, towards the stern, is the large galley and the crew cabins capable of accommodating up to 5 people. Despite being a fast and sporty boat, Athos, in addition to offering a large and well-designed stern area with a big table and sunbeds and a comfortable sun area in the bow, was built with a flybridge which constitutes, with its sunbathing arrangements, a Jacuzzi pool, a bar, and a sofa, a perfect relaxation area. Powered by three 2000 HP MTU engines and driven by three KaMeWa hydro jets, this yacht is capable of reaching a max of 38 knots with a cruising speed of 28 knots. The transom boasts a fast tender, 2 sea bobs, and a wide range of the most trendy. The photos presented relate to the current arrangements. In May 2022, at the end of the refit which also includes the new upholstery, a new photoshoot will be carried out.
