

SEA WATER PHANTOM 300

DESCRIPTION

SEA WATER PHANTOM 300 he PHANTOM 300 represents a step forward in terms of design and technology from the SMERALDA 300 model on which it is partially based. It maintains the very same extraordinary hull, with unparalleled stability, handling and navigation, but it's the new deck layout, the richness of the standard fittings and accessories and the brand-new design of the deck structures that allows the PHANTOM 300 to reach superior levels of comfort, style and versatility, turning it into something unique and original.
