DESCRIPTION

SEAWATER SMERALDA 250 CHARTER BAREBOAT

The SMERALDA 250 is a modern vehicle with a simple but refined design. A complete boat, with all the features and equipment for a 360 ° recreational use and a dinghy with superior marine qualities, with exceptional navigation. Nothing has been left to chance to make the SMERALDA 250 starting from the very rich supply of standard accessories. No other vessel of equal size on the market can boast such a wealth of accessories and materials and finishes worthy of much larger boats. A large bow sunbathing area with a large cargo locker below, an important stainless steel bow mooring cleat, an anchor in the hull with windlass and electric winch, a truly remarkable and rich driving console with front seat with locker (a request with fridge), a very spacious instrument panel, stainless steel handrail with windshield, kidney seat with 50mm stainless steel tubes, a huge stern sundeck that can be transformed into a sofa with a reclining backrest and with a huge stowage locker below, two stainless steel stern mooring, non-slip safety band on the tubular and finally the

shower and a fuel reserve of 300 liters with stainless steel tank. With other optional features such as the 'T-Top' or the teak deck or the refrigerator, the SMERALDA 250 becomes a top-of-the-range vehicle that lacks nothing. Navigation, in our best tradition, is exceptional and the craft is safe and dry and with an amazing range
